

Jose Manuel Blondel Moya

Junior Web Developer · TypeScript · React · Node.js · Django · PostgreSQL · Docker
jose7blondel@gmail.com · +34 632 485 849 · Mataró, Barcelona, Spain · [linkedin.com/in/jose-manuel-blondel-moya](https://www.linkedin.com/in/jose-manuel-blondel-moya) · github.com/chijopana · joseblondel.dev

PROFESSIONAL PROFILE

Second-year student of the Higher Degree in Web Application Development (DAW, IOC). I build full-stack applications end to end: REST APIs with Express or Django, React frontends, PostgreSQL persistence and containerised deployment with Docker Compose. Hands-on with payment integration (Stripe), classification models (TensorFlow, scikit-learn), plus PHP on a project delivered to a real client: a landing page with a custom booking system. Looking to join a team where I can grow as a developer.

PROJECTS

Gymesis — Competitive Fitness Tracking App 2026

Personal project · github.com/chijopana/gymesis

- End-to-end TypeScript application: REST API with Express and PostgreSQL, React frontend with Zustand for state management.
- Social features (friend system, group workouts) and a training insights panel that analyses the user history and surfaces progression metrics.
- Full environment orchestrated with Docker Compose (frontend, API and database), reproducible with a single command.

PulseChat — Chat App with Subscription-Gated Content 2026 – Present

Personal project · github.com/chijopana/pulsechat

- Messaging application with paywalled content, built with Node.js and React.
- Stripe integration for checkout and subscription lifecycle management.
- Server-side access control gating content by the user’s subscription status.

MediLab — AI-Assisted Clinical Classification Web App Jan – Jun 2024

Full-stack bootcamp capstone · Fundació Esplai, Barcelona

- Full-stack web app with a Django REST backend (15+ endpoints) and an HTML5/CSS3/Bootstrap/JavaScript frontend.
- Classification models with TensorFlow and scikit-learn on tabular clinical data, 87% validation accuracy.
- Led introductory Python workshops for 20+ programme participants.

EXPERIENCE

Freelance Web Development — Venue Landing Page with Booking System Nov 2025

Client project via Fiverr · The Ultimate Experience, Los Cabos (Mexico) · theultimateexperience.com.mx/reservas

- Bilingual (ES/EN) venue and restaurant booking landing page for a luxury experiences company, built on WordPress and Elementor with hand-written HTML, CSS and JavaScript blocks.
- Custom PHP booking system: form validation and two transactional emails — a confirmation to the guest and a notification to the company team.
- Venue cards with collapsible sections, a booking modal covering venue, date, time and party size, PDF menu downloads and a direct WhatsApp contact channel.
- Responsive design verified on desktop, tablet and mobile. Full client cycle: requirements, development, delivery and post-delivery support.

Freelance Courier Oct 2023 – Present

Glovo · Mataró

- 1,000+ deliveries completed while studying for the DAW degree in parallel.
- Handled customer and merchant incidents independently, making decisions under time pressure.

EDUCATION & CERTIFICATIONS

Higher Degree in Web Application Development (DAW) Sep 2025 – Jun 2027

Institut Obert de Catalunya (IOC) · In progress, second year · Object-oriented programming · Databases · Client- and server-side web development · Systems and network administration

Certifications 2025 – 2026

Meta Front-End Developer (Coursera) · Google IT Support Professional (Coursera) · DeepLearning.AI · Responsive Web Design, JS Algorithms and Python (freeCodeCamp) · Web Publishing Certificate (IOE, Terrassa)

Computer Engineering — 4 semesters completed 2021

Universidad Santiago Mariño, Venezuela

TECHNICAL SKILLS

Languages	TypeScript, JavaScript (ES6+), Python, PHP, SQL, HTML5, CSS3
Frontend	React, Zustand, Tailwind CSS, Bootstrap, responsive design
Backend	Node.js, Express, Django, REST API design, authentication
Databases	PostgreSQL, MySQL, MongoDB, SQLite
DevOps	Docker, Docker Compose, Git, GitHub, Linux (Ubuntu), Terminal/CLI
AI / ML	TensorFlow, scikit-learn, Pandas, NumPy
Tools	VS Code, Postman, Stripe API, WordPress, Elementor, Figma
Languages	Spanish (native) · Catalan (B1) · English (B2)
